

# No Money. No Time. No Practice.

## Volunteer Ambulance Crews Can Improve Handoff.

Project Paper  
and References

### Purpose

The purpose of this QI project was to **improve the handoff process for a rural, volunteer ambulance service.**

#### → Objective 1:

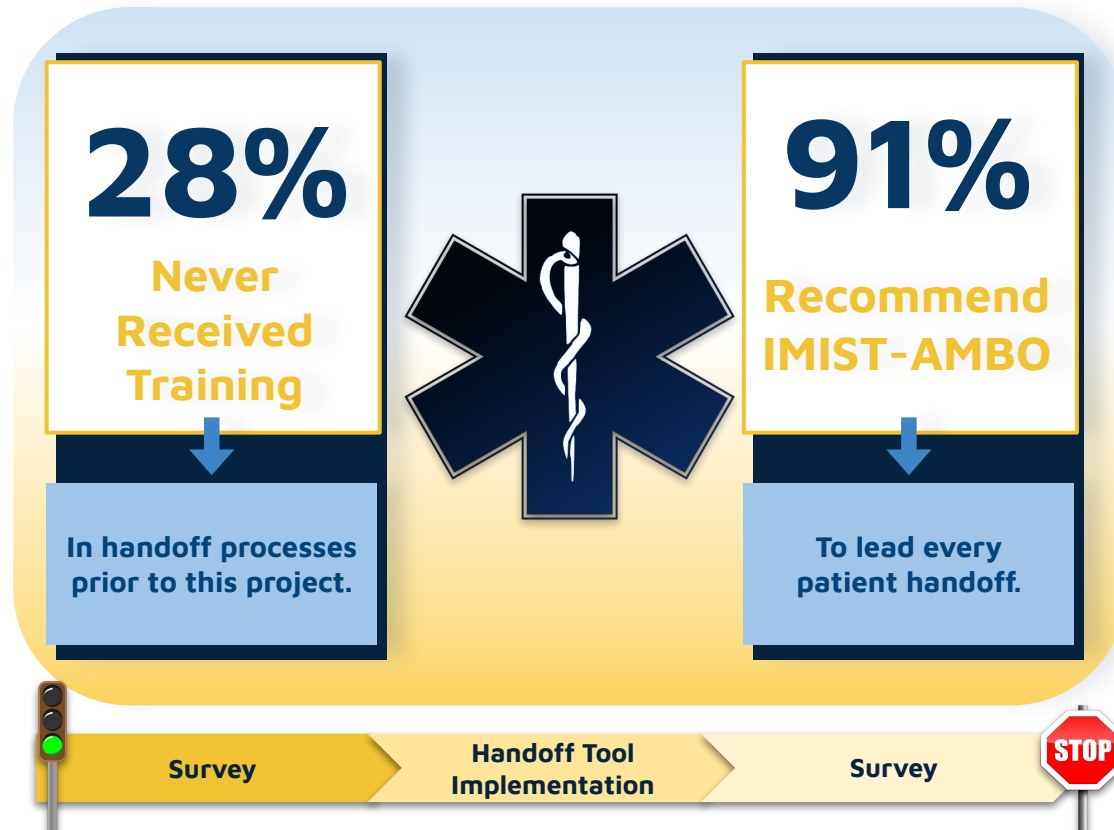

Implement an easy to use, standardized EMS-to-ED handoff tool.

#### → Objective 2:

Increase the quality of information transfer during handoff.

#### → Objective 3:

Improve EMS comfort level with handoff.

### Sustainability

- Low-Cost
- Little Time Investment
- Easy-to-Use
- Tailored
- Flexible for Growth

### Impact on Practice

→ Nurses can and should help develop QI processes in EMS.

→ Shows **feasibility** for tailored improvement initiatives in volunteer settings.
